Office of Academic and Community Conduct
ACADEMIC INTEGRITY ANNUAL REPORT
2023-2024

The report will not only provide data on academic misconduct violations but also information on various initiatives and accomplishments that deal with academic integrity.

OACC Academic Integrity Initiatives

- Develop a comprehensive plan to educate students, faculty, and the University community on what the culture of academic integrity is at Michigan Tech.
- Work with various constituencies to develop sufficient academic support for students and faculty.
- Develop a marketing plan for promoting an academic integrity culture across the university community.
- Implement an assessment plan to gauge the success of creating/supporting/enhancing a culture of academic integrity.
- Collaborate with the Center for Teaching & Learning and the Library to get information and resources out to students and faculty regarding artificial intelligence & academic integrity.

OACC Accomplishments

- Presented on academic integrity at the new faculty orientation.
- Presented on academic integrity to international students in Life @ Michigan Tech course.
- Presented on academic integrity to Medical Lab Science students.
- Presented on academic integrity to Chemical Engineering graduate students.
- Presented on academic integrity to Mechanical Engineering graduate students.
- Presented on academic integrity to Creative Practices students.
- Participated in monthly meetings of the Association of Student Conduct Administration's Academic Integrity Community of Practice.
- Together with a working group implemented the Academic Integrity Rating System and produced a final report.
- Presented on the Academic Integrity Rating System final report to the Graduate Student Government.
- Collaborated with the Library and Center for Teaching & Learning to organize an Artificial Intelligence Coffee Chat.
- Attended on-demand summit "Navigate the Age of AI with Confidence".
- Continued to provide articles on Artificial Intelligence use in education to faculty and staff through the AI in Education Google Group.
- Attended various academic integrity webinars:
  - "Honor Codes: Enacting, Engaging, and Embodying"

- o "Responsible AI for the Entire Institution"
- o "Managing AI-Detection at Scale"
- o "Creating an Academic Integrity Community through Campus Partnerships and Educational Initiatives"
- o "Building a Culture of Academic Integrity"
- o "AI, AI, and You! Examining the Role of Artificial Intelligence within Academic Integrity"
- o "Bringing AI Literacy to the Higher Ed Institution"
- o "AI & AI"
- o "The Future of Writing: Creating the Playbook for Human-AI Collaboration"
- o "Generative AI Detection- No Software Needed"
- o "Designing Secure Assessments in the Age of AI"

Academic Misconduct Data

The number of academic misconduct cases decreased by 46% during the 2023-2024 academic year. The total number of reported cases is equivalent to pre-pandemic numbers. There still is concern regarding the impact generative artificial intelligence (ChatGPT) will have on academic integrity. There are continuing efforts to help educate faculty and students on the ethical use of artificial intelligence in teaching and academic work.
